### Testimonials

“Men's Liberty is terrific. I can keep doing what I want to do, without having to worry about running to the bathroom or changing my clothes. It's a Godsend.”

John in Michigan

### Men's Liberty Products

Our proprietary external catheter system is a solution to incontinence but without the headaches of other popular devices, such as condom catheters. It's designed to keep urine away from the skin, reducing the risk of UTIs – a familiar occurrence to those who've used other products. You can buy our external catheter directly or get our starter bundle through your health insurance. For those already using Men's Liberty catheters, we also sell our FreeDerm adhesive remover, which is used to quickly and painlessly change your Men's Liberty adhesive seal, as a stand-alone product.

### Learn About Urinary Incontinence In Men

Urinary incontinence can be devastating to live with. Traditional male urinary incontinence products are invasive, increase the risk of UTIs, and can be awkward to use. The risk factors, causes, types, and solutions for incontinence vary wildly.

### Money Back In Your Pocket

Adult diapers can cost up to \$200 a month when used regularly. Men's Liberty is the affordable solution that is covered by Medicare and over 3,000 insurance plans, so you'll pay little to no out-of-pocket cost. Standard deductibles and co-pays apply.

We take care of contacting your doctor and the paperwork involved for your insurance. If you're ready to save thousands of dollars a year, get out your insurance card and give us a call today to take back your confidence by using Men's Liberty for your incontinence needs.

### Questions Before You Get Started?

Our knowledgeable staff is available to answer any questions that you may have about Men's Liberty external male catheters by BioDerm. Call a live representative – available 24/7 – or check out our FAQ page for more information.
