

Gold Medal Winner “Katie” Ledecy is a Very Recent Kind of Woman

Elvis DunderhuffAugust 1, 2024

Come on.

They're not allowed to take ass shots of real women anymore.

So they might as well just have men dominate all of the female sports, because then it's at least serious athletes.

I kinda don't think anyone is watching the Olympics.

This is probably the last hurrah of “woke.”

Reuters:

If there was one safe bet to be made at the Paris Olympics pool it was (((Katie Ledecy))) winning the women's 1,500 metres freestyle, and the American once again on Wednesday proved she is swimming's sure thing, powering her way to another gold.

As it has been for more than a decade, the question wasn't if Ledecy, the reigning Olympic champion, would win the 1,500 but by how much, leaving the field in her powerful wake storming to the wall first in 15 minutes 30.02 seconds and into the swimming record books.

No breasts, narrow hips, wide shoulders.

It was a history-making swim by the 27-year-old American who pocketed her eighth Olympic gold medal to join compatriot Jenny Thompson for most by a female swimmer.

Ledecy also becomes the first female swimmer to stand at the top of the podium at four Olympics, joining compatriots Michael Phelps and Ryan Lochte – the only men to have accomplished that feat.

More significantly after her 1,500 win and a bronze in the 400m free Ledecy stands on the brink of Phelps-like greatness.

Michael Phelps is old now, but he should seriously consider just saying he's a tranny and winning even more gold medals.

I'm sure he could beat this dude.
