**KANSAS CITY, Mo.** — Missouri State Senator ((David Gregory)) has prefiled a bill that would create new penalties for undocumented immigrants entering and residing in the state.

The proposed legislation establishes the offense of "trespass by an illegal alien," making it a felony punishable by imprisonment without eligibility for probation or parole.

Exceptions apply if the federal government takes the individual into custody within 24 hours for deportation.

Under the bill, those convicted would be prohibited from voting in any election, obtaining a driver license, receiving public benefits, and becoming legal residents of Missouri.

The measure also directs the Missouri Department of Public Safety to develop an information system —including a toll-free hotline, email, and online portal—for reporting violations.

Individuals who report cases leading to an arrest would be eligible for a \$1,000 reward.

Additionally, the bill proposes the creation of the "Missouri Illegal Alien Certified Bounty Hunter Program," which would certify qualified individuals to locate and detain undocumented immigrants.

A dedicated fund would be established to support the program.

Since it is a prefiled bill, no action has been taken.

**COLLIER COUNTY, Fla.** — What initially seemed like a prank for a Florida family turned out to be a surprising twist straight out of a holiday movie.

Shanick Suarez of Golden Gate Estates in Collier County, Florida, said she put up her decorations in November, but her inflatable Grinch decoration on her porch vanished on Black Friday.

"We were just dumbfounded," Suarez said. "We were like, where did it go?"

After searching her yard and checking security cameras, Suarez thought a prank or a wandering dog might have been to blame. Days later, a neighbor texted her, saying they spotted the Grinch two houses down.

Suarez retrieved it, plugged it back in, and thought the mystery was solved.

Then, early Wednesday morning, Suarez's security cameras sent her another alert. When she checked the footage, she couldn't believe her eyes — it was a bear!

"I never expected it to be a bear!" Suarez said. "I thought it was the funniest thing ever. I literally, like, text my husband. I'm like, 'What is going on?' We were texting back and forth, just rewatching the video, sending it to all of our family and friends at five in the morning."

The furry thief was caught on camera clawing at the inflatable Grinch, unplugging it, and dragging it into the woods.

Unfortunately, the Grinch didn't survive his encounter with the bear. The inflatable was too damaged to repair, forcing Suarez to toss it in the trash.

"We thought it was the craziest thing," Suarez said, holding up the chewed-off cable with a laugh.

While the Grinch won't be stealing Christmas this year, it seems the bear managed to swipe the spotlight instead.

"It's a funny story to tell," she said.
