

Henry Nowak: How misinformation sent two people into hiding

Former police officer Christi Hill has told BBC Verify she has been forced into hiding and is fearful for her safety after she and another officer were misidentified on social media as being involved in the arrest of Henry Nowak. Bodycam footage released this week shows 18-year-old Henry being handcuffed by officers as he repeatedly said he couldn't breathe. The other officer, PC Tristan Parsons was out of the country - and Christi Hill had left the force more than a year before the incident. Kayleen Devlin reports.
